DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claim 18 is rejected under 35 U.S.C. 103(a) as being unpatentable over the PG-Publication to Doolan ('985).

Per claim 18, paragraph 63 of Doolan suggests a look-up table that is utilized to correct for variations in the acoustic centers of the hydrophones (12). Although not explicitly disclosed, it is obvious to one of ordinary skill in the art that the look-up table may be considered the theoretical acoustical center that is used to correct (compensate) for variations (offset) in the actual acoustic center.

Allowable Subject Matter

3. Claims 1-10 and 12-17 are allowed.

Response to Arguments

4. Applicant's arguments filed January 7, 2008 have been fully considered but they are not persuasive with respect to claim 18. The breath of the claim is such that the Doolan reference suggests correcting for variations (compensating for offset) between actual and theoretical acoustic centers.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
